PREVENTION OF CRUELTY TO ANIMALS.-We are indebted to Mr. Bergh, of New York, for the first organization of a Society for the vigilant supervision over those acts of brutali-

his tender consideration for the dumb creation too far, and has been laughed at as a consequence, he has invariably been treated by the public generally, with consideration. Although Mr. Bergh is something of a sentimentalist, and is apt to carry his authority too far, he is nevertheless a practical, energetic philanthropist, who, in spite of a somewhat too gushing sensibility, is believed to be actuated solely by pure and disinterested motives.

It is also to his honor that he was fearless enough to come before the public in the inception of this enterprise, and to brave the ridicule his first efforts were certain to provoke. From those efforts, and through the support and assistance of gentiemen of standing and position, the Society which Mr. Bergh represents has not only won the respect of the citizens of New York, but has been able to obtain

GOV. REED, OF FLORIDA. -Still another of the Governors who have been engaged in robbing the South has come to grief, the victim in this case being Harrison Reed, of Florida. The Legislature of that State, it is said has voted unanimously to impeach him, on the recommendation of the Kailway Committee, for being concerned in gross trauds in connection with the issuing of bonds for the construction of railroads-a favorite scheme of plunder with these gentry. There is a long story relating to the particular outrage which has brought Gov. Reed into difficulty. As far back as 1868, so the tale runs, one Swetson joined with Gov. Bullock, who lately decamped from Georgia, in projecting a railroad in North Carolina. For the construction of this road the Logislature of that State, under pressure from another Governor, who subsequently was impeached and deposed from office, authorized the issue of \$7,000,000 in bonds. Swetson carried the bonds North, raised \$500,000 on them, and leaving the new railroad to take care of itself, ran off with his plunder to Florida. There he fell into the hands of shrewder raseals than himself, and was strip-first class only. Office hours from 8 a. m. to 6 ped of most of his booty; whereupon, with the assistance of Gov. Reed, he repeated the game which had been so successful in North Carolina, and the Legislature was induced to issue \$5, 000,000 in bonds for building a certain railroad in Florida. Of this sum \$125,000 was expended on the railroad, while the remainder went into the pockets of Swetson and his confederates. Thus two States were made to pay \$11,875,000 in order to get \$125,000 expended on a single

woman who is now "queening it in Washington society." Madame W—, well-known in Kansas City as the proprietress of one of the most fashionable of the control QUEENING IT IN "SOCIETY."-A Washingmost fashionable of the houses of doubtful name, is here under assumed name, and queening it in the best society with a grace and elegance that would reflect credit upon the most accomplished ladies of the French court. She is the chosen one of a prominent M. C., by whom she is introduced into society as his cousin, whom he has brought to Washington city to get a glimpse of life at the capital, and to do the honors as mistress of the elegant mansion he has rented during the session. She was at a party the other night, and a newspaper reporter was so smitten by the charms of her person and manner, that in his next morning's paper he gushed forth in a quater column of rhapsody upon the charming cousin of the honorable gentleman.

COST OF LEGISLATIVE SESSIONS.-Mr. Potter, of Massachusetts, has gathered some interesting facts relative to the average length number of members-338, while the Delaware House has but 21. New Hampshire, however, has the smallest number of Senators-12, ex-\$10 per diem, while those of Rhode Island receive but \$1 per day. The Kentucky Legislature meets but once in two years, and the average length of the sessions is sixty days, while the Legislature of Massachusetts holds annual high cost of \$256,000 per annum while in Delanially; in Rhode Island. \$8,000 annually; in New Jersey. \$14,000 per year, and in New York, \$48,000 annually.

TURPENTINE FOR HEADACHE.-Dr. Warbur ton Begbie (Edinburgh Medical Journal) advocates the use of turpentine in the severe headache to which nervous and hysterical women are subject. "There is, moreover," says, "another class of sufferers from headache, and this is composed of both sexes, who may be relieved by turpentine. I refer to the frontal headache, which is most apt to occur after prolonged mental effort, but may likewise be induced by unduly sustained physical exertion -what may be styled the headache of a fatigued brain. A cup of very strong tea often relieves this form of headache, but this remedy, 1860, due 1st September, 1880. Coupons payable with not a few, is perilous, for, bringing relief to pain, it may produce general restlessness and—worst of all—banish sleep. Turpentine, in worst of all-banish sleep. Turpentine, in doses of twenty or thirty minims, given at intervals of an hour or two, will not only remove the headache, but produce in a wonderful manner that soothing influence to which reference
